WHO WE ARE

OUR MISSION

We are committed to supporting our clients in the packaging, plastic, and manufacturing industries by providing custom-designed moulds with exceptional efficiency and reliability.

[2005]  Founded
[2010]  First Export

OUR VISION

To be a leading global manufacturer of high-performance moulds, recognized for our technical excellence, customer-centric approach, and continuous innovation in the mould-making industry.

Global Reach  **[2015]**
R&D Expansion  **[2017]**

OUR SERVICES

BEST INFRASTRUCTURE

Our top-notch infrastructure and advanced facilities help us deliver high-quality services to our clients.

DETAILED PRODUCT SPECIFICATIONS

Our detailed product specifications ensure precise, high-quality solutions tailored to client needs.

DELIVERY ON TIME

We guarantee dependable scheduling and efficient logistics, so you can plan your operations with confidence.

SPEED STANDARDS

At **Shree Aashapura Mould**, we deliver fast without compromising quality or accuracy.

WHY CHOOSE US

QUALITY

We partner with you to create high-quality moulds that ensure accuracy, and long-term value.

INNOVATION

Innovation is at the heart of everything we do crafting moulds that give you a competitive edge.

EXPERIENCE

Experience you can count on we bring expertise to every project, ensuring quality results.

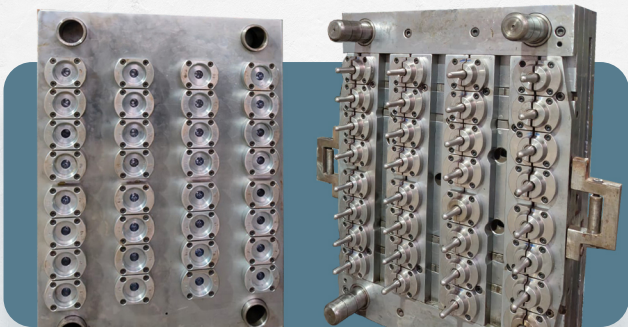

SUPPORT

Shree Ashapura Mould standsby you with reliable supportfor seamless project success.

PET PREFORM MOULD

We produce high-quality hot plate **PET Preform Moulds** ranging from **2** to **48** cavities, suitable for various neck types and sizes from 12mm to 180 mm, with multiple thread designs.

Backed by advanced machining and quality testing, we offer moulds that meet international standards with optimized cooling and balanced hot runner systems.

32 Cavity

20 mm Neck

5.5 gm Weight

PET JAR MOULD

We manufacture high-performance **PET Jar Moulds** compatible with various neck sizes and thread types, ideal for blowing PET jars and containers used in multiple industries.

Our PET Jar Moulds offer precision engineering for accurate threads, tight tolerances, and high-quality output, featuring high-efficiency cooling for faster cycles and consistent production.

2 to 6 Cavity

53 to 180 mm Neck

10 to 600 gm Weight

HOUSE HOLD MOULD

We produce high-precision **House Hold Moulds** for daily-use products, ensuring durability, smooth finish, long life, and reliable performance—perfect for mass production with low maintenance.

We offer custom House Hold Moulds for buckets, containers, furniture, and more built with durable steel, smooth finish, fast cooling, and precision machining for reliable production.

PET & HDPE BLOW MOULD

We specialize in the design and manufacturing of high-quality **PET Blow Moulds** and **HDPE Blow Moulds**, crafted to meet the precise needs of various industries.

High-precision moulds with mirror-finish cavities, uniform thickness, and corrosion resistance. Designed for high-speed, automatic or semi-automatic machines to ensure optimal productivity and clear output.
